## AGENDA

### SEMINAR DESCRIPTION

Lawyers have realized they have to understand how to use technology, but knowing what they need to be wary of for ethical compliance and then learning how to best use systems can create concerns. The presenters will discuss hot ethical landmines to steer clear of when using technology; review cutting-edge technologies, including an assessment tool geared toward helping lawyers understand their proficiency with commonly used software; and show attendees the new face of Fastcase. Each of the panelists will walk through some of their favorite technology solutions, showing you exactly how they work and explaining the benefits of using them. With the new skills and tools learned in this session, lawyers will be armed to use their current technology better as soon as they leave.

### TOPICS

- Ethical Considerations for Today's Technology
- The New Face of Fastcase: Presenting Fastcase 7
